### Objective

To obtain a professional position where I can develop my skills as a geologist, gain valuable field experience, and advance my technical skill-set such that I can add value to the company that affords me challenging experiences and opportunities.

### Education

- B.S. in Geology, University of Oregon, Eugene, Oregon, August 2012.
- Geology 425 Geology of Ore Deposits: Learned to identify and interpret the formation of ore veins and minerals.
- Geology 416 Sedimentary Petrology: Learned to interpret the formation of sedimentary rocks.

### Geologic related Experience

- Field Study Volcanology: Learned to identify, map, and interpret features of high lava plains. Learned to make a detailed topographic map using modern surveying equipment.
- Field Study Stratigraphy, Mapping, Geomorphology: Mastered mapping and interpreting field stratigraphy, tectonic geomorphology, and geologic mapping.
- Field Study Structural Geology: Increased knowledge of geologic mapping of large and small scale structures, making and interpreting stereonet, construction of cross sections.
- Scanning Electron Microscope Project: Learned the theory behind, and how to use a scanning electron microscope. Analyzed data from the microscope and found the exact composition of a sample rock.

### General Experience

- Prep Chef at the Konditorei in Salem, Oregon for one year. June 2006-June 2007
- Sales Associate for The Sports Authority in Eugene, Oregon for four years. May 2008-May 2012.

### Skills

- Exceptional people skills: Learned multiple customer service techniques throughout four years at Sports Authority.
- Proactive time management and organizational skills: Went to school full time while working 15-20 hours a week throughout my college career.
- Excellent oral and written communication skills: I am confident and dedicated to working in teams and/or independently to convey and accomplish given objectives.
- Extremely competent in Microsoft Office tools and products.

### Awards

- Scholarship awarded for Field Study Camp. Summer 2012.
